Team ID	
Project Name	Smart Lender
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
Manual loan approval is slow, biased, and error-prone	A bank loan officer	Evaluate loan applications quickly and accurately	The manual review process takes days and leads to inconsistent decisions	There is no automated system to analyze applicant creditworthiness using data	Frustrated and overwhelmed with pending applications and high rejection disputes
